

When You Take Cold

One way is to pay no attention to it; at least not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

We publish our formulas. We furnish samples of our medicines. We urge you to consult your doctor.

When the bowels are constipated, poisonous substances are absorbed into the blood instead of being daily removed from the body as nature intended. Knowing this danger, doctors always inquire about the condition of the bowels. Ayer's Pills.

THINKING OF MOVING WEST?

If not, then make up your mind and write me for descriptive list of farms in Missouri, Kansas and Oklahoma. All fine, level, productive land that will grow anything under the sun, at prices ranging from \$15 to \$40 an acre, and come where life is made tolerable by easy, profitable farming. Why sweat and fret life away in the vain effort to eke out a mere miserable subsistence from the rock-ribbed, root-laced hillsides as your father and father's father did, when there is so much good land to be had yet awhile for a mere song? Get out of the rut—break away from the time-worn habit that keeps your nose to the grindstone. All it takes is resolution and a little nerve. Write me, and let me help you to a better condition.
